Masterdor Craftsman

The precision engineered timber door - a true innovation for your home

The Masterdor Craftsman is a door that speaks of precision engineering, quality construction and stunning good looks. With 22 door styles to choose from and with 21 beautiful lifestyle colours available, Masterdor Craftsman is a truly outstanding door.

Your home deserves the very best and Masterdor can provide that very thing. From our state-of-the-art premises in Nether Heage, Derbyshire, Masterdor have been building beautiful doorsets since the 1990's. Named after the beautiful woodlands of Britain, the Craftsman is our premium timber door and is exceptional in every way.

Simply a better class of door

A class leader in strength, security and authentic craftsmanship

We are proud to state that the Masterdor Craftsman door is second to none and the care and skill put into our doors shines through whilst the innovation and engineering will bear out over its lifetime. Named after the beautiful woodlands of Britain, the Craftsman door is a tangible investment in your home.

- **Precision engineered to last**
A combination of a Kerto Q core, Sapele mahogany lipping and Tricoya facings provide a stable, hard-wearing, water resistant door
- **Two door slab choices - 44mm and 54mm**
Whatever your requirement or application, we offer both 44mm and 54mm door thicknesses with double and triple rebates
- **Thermal core option**
For the best in energy efficiency opt for a thermal door with a Polyurethane insulating foam core
- **21 stunning colours**
From fiery reds to cool blues and all the shades in between, our colour range is first class
- **A complete hardware choice**
Three individual ranges to choose from that include: handles, knockers, letterboxes and centre door pulls
- **Beautiful glazing options**
Over 28 elegant glazing styles are available for many of the Craftsman door styles
- **Low-E glass panels**
Wherever possible we supply an energy efficient glass specification as standard - see page 58-59
- **Safe and secure**
The unique construction of a Craftsman door provides an incredibly strong defence for your home
- **Frame, sill and threshold options**
A wide range of options to complete your door specification including Part M low threshold
- **Document L Compliance**
Meets UK Building Regulations for replacement door applications

Why an engineered timber door and not a standard timber door?

As beautiful as a traditional timber door can be, wood in its purest form, is not the best material for this application. We have “designed out” all of the inherent problems usually experienced, and the Craftsman is an all round better, more reliable door for your home.

- No yearly maintenance
- No warping and twisting
- No draughts caused by shrinkage
- No rotting and deterioration
- No weather penetration
- No unstable timbers
- No flaking and crazing of paint finish
- No sticking and catching

A door engineered to perform

The most innovative, highly engineered door - direct from Masterdor

It has taken more than two decades of research and development for the Masterdor Craftsman door to evolve into the innovative, structurally sound product that we know today. Using years of experience in joinery and traditional craftsmanship, whilst harnessing the latest in innovative technologies and materials, the Craftsman door has ascended as the industry leader.

Our development team and workforce strive to produce the very best doorsets in the market place. Their craftsmanship and attention to detail are obvious in the complex construction and advanced materials used in each and every Craftsman door, guaranteeing a sound door for many years to come.

1

Engineered Solid Core – Kerto Q

- cross-banded lamels for stability
- timbers work against each other to avoid warping
- maximum bow is just 1 mm per m²

2

Solid Sapele Lipping

- encapsulated with ultra-dense Sapele on 4 sides
- provides exceptional moisture barrier
- ideal to fix hinges into – prevents dropping door

3

Tricoya Facings

- acetylated timbers (acid treated)
- 100% water resistance throughout
- fully encapsulates exposed face
- no open joints/mitres when timbers move

4

Microporous Primer/Basecoat/Topcoats

- micron thickness equivalent to 10 brushed coats
- hard wearing finish available in 21 colours

5

Aluminium Sub-Frame

- 3mm minimum wall thickness
- enhances security through strength
- easy to install with a rigid, no-flex structure

6

Sapele Mahogany Hardwood Caps

- hard-wearing and durable for external use
- colour matched exactly to doors
- easily replaced if damaged

Masterdor are proud to manufacture with...

Strong and Secure: The sturdy 54mm blade with solid core and timber/aluminium capped frame is an ideal choice for quality, strength and the best in innovative engineering

Available as:

- 44mm blade (solid or thermal)
- 54mm blade (solid or thermal)

Dressed to impress...

The perfect door furniture to dress your Masterdor Craftsman door

We've selected beautiful door hardware that complements the Craftsman door range perfectly. Whether your chosen style is a classic panelled door or a more contemporary door with a grooved design, we have the ideal hardware in range.

All Masterdor Craftsman doors come with a standard handle, letterbox and knocker in a choice of five colours, four sturdy stainless steel or brass hinges and a secure multi-point lock as standard. See page 56-57 for details.

Standard Suited Hardware

Handle (lever and pad), letterboxes, knocker and spy hole available in four finishes: Polished Gold, Chrome, Satin and Black.

Contemporary Hardware

Sleek, elegant furniture suitable for our contemporary door designs in brushed stainless steel. Choice of three handle styles, pull and two knockers.

Premium Heritage Hardware

Beautifully hand forged in either a Black or Pewter finish. Choose from two handle designs, a pull, three knockers and a letterbox.

Let the daylight flood in...

Choose from 28 glass designs to personalise your home with style

A glazed panel in your Craftsman door not only has the practical benefits of allowing light in, it also lets you reflect your own personal taste, style and creativity, effortlessly. Choose from up to 28 glass designs to create that perfect first impression.

We have selected the most elegant and attractive designs which complement our stunning range of door styles. Whether you have chosen a traditional or contemporary

style, we have the ideal glazing choices to bring your door to life. Looking for something quirky? Choose a contemporary design for a traditional door or vice versa.

All our glazing products are manufactured to conform to the same exacting high standards as your Masterdor Craftsman door, guaranteeing you peace of mind for years to come. Please note that wherever possible we supply energy efficient glass units as standard - see page 58.

Elegant glazing: Murano is just one of 28 different decorative glass designs available with your Craftsman door. With its linear motifs, bold sweeping curves and five colour-ways, it is little wonder that it is one of our most popular designs.

Door colour featured on page...

With primer, basecoat and topcoats - that's equivalent to 10 coats of paint

Bring your door to life with one of Masterdor's lifestyle colours. Inspired by nature and our rich heritage, each shade delivers a unique character to your home. Be inspired by our latest colour palette and let your creativity run free.

All four layers add up to the equivalent of an impressive 10 coats of paint. With such a hard-wearing finish, you will be enjoying it for many years to come.

Our paint, however is not just all about looks. Every door leaves our workshop with two water based layers of colour, two of undercoat and a primer, each applied using the latest spray technology.

A close-up photograph of a modern window handle and frame. The handle is a long, cylindrical brushed steel rod. It is mounted on a dark, possibly anthracite-painted, window frame. The frame has a multi-paned design with dark muntins. The background is slightly blurred, showing a wooden surface. The lighting is soft, highlighting the metallic texture of the handle.

Modern styling

A contemporary classic : The Foxley in Anthracite paint with Contemporary Brushed Steel hardware (Off-set available as shown) and Low-E clear glazing

Contemporary styles

The modern clean look of the Masterdor Craftsman grooved designs is key to the Contemporary range. Using routed grooves to give the impression of tongue and groove boards, gives a designer look without any of the known downsides. There are no issues with twisting planks due to extremes of weather or moisture and no peeling or crazing of paint when boards swell or contract.

Our growing selection of modern designs have become very popular in recent years. The Foxley,

for example, with its characteristic long narrow glazed panel is the epitome of modernity when teamed with our stylish brushed stainless steel hardware suite.

The versatile looks of The Rufford, The Albury and The Whittingham when dressed in Black Premium Heritage Hardware, afford a cosy, country charm or alternatively with Polished Chrome hardware look perfectly at home in the city.

The Foxley

The Foxley is a popular addition to the contemporary range of Craftsman doors. With its long single panel, The Foxley is as elegant as it is practical. Teamed with Brushed Stainless Steel hardware, this door is a modern classic.

The long narrow glazing aperture of The Foxley may be positioned on the left, the right or can be centred.

Classical styling

A beautiful range of traditional doors that bring a classic and luxurious look to your home. Elegant lines and expertly crafted panels combine with modern construction, giving you the very best of both worlds.

Traditional styles

Your front door is the first impression that a visitor has of your home. Whether you want to give the appearance of urban sophistication or something altogether grander, the Craftsman Traditional range has the ideal design.

Our traditional panels and mouldings have an elegant timeless quality that provides your home

with a look of tasteful discernment. Choose one of the stronger hues from our colour palette such as Wax Seal or Whitby Jet for a classic look or choose a natural shade such as Vellum or French Sage for a more contemporary edge.

Whatever you decide, Masterdor Craftsman provide the choice and range to make the right impression.

Specifications

Colour

From soft natural hues to stronger traditional colours, our colour palette offers 21 shades to give your door a unique look. To guarantee your Craftsman door is protected, every door leaves us with two water based layers of colour, two of undercoat and a primer - the equivalent of 10 coats of paint.

Please note that all doors are the same colour internally as the external colour unless specified otherwise at the time of ordering.

 summer coral	 lemon curd
 bottle	 chartwell

Glazing options

We have selected the most popular glazing options best suited to your Craftsman door. From contemporary designs to the more traditional glass styles, we

know you will find the perfect look for your chosen application. Although not available in every door style, the following images give an indication of appearance.

† Our decorative glazing designs are supplied with a choice of backing glass from Global Glass see opposite page

Backing glass options

Pilkington Stippolyte™

Pilkington Cotswold™

Pilkington Contora™

Pilkington Minster™

Low-E, energy efficient glazing as standard

Wherever you see this icon or § in our glazing options, we will supply our Low-E, Argon filled units without any extra cost. Glazing in a timber door always improves its thermal performance so by installing our Low-E option, we can help to promote that effect, which is better for the environment and better for your pocket.

Yale 3* security cylinder as standard

TS007:2014 3 star approved
BS EN1303:2005 approved
KM559658

Not only is the solid core of a Masterdor Craftsman door incredibly strong and almost impenetrable to all but the most determined burglar, we also supply the Yale Platinum Euro Profile cylinder as standard across the Craftsman range.

This cylinder is an anti-pick, anti-bump, anti-pull, anti-drill and anti-screw solution offering the full 3* rating, making it one of the most secure cylinders available.

Masterdor are committed to the safety and security of you and your home.

Specifications

Often it is the finishing touches to a project that make all the difference. To achieve the perfect look for your home with crucial functionality, Masterdor offers a choice of frame, threshold and sill options to suit your requirements.

Frame options

Standard PVC-U Sheerframe chamfered outerframe (White only)

- **Multi-chamber profile**
With 8 chambers, our Sheerframe multi-chambered frames give an impressive thermal performance as standard
- **Environmentally friendly frames**
Lead-free profile and plastic thermal reinforcements (PTRs) are both thermally efficient and incredibly strong with the added bonus of being light and quick to install
- **Triple sealed**
Our innovative system uses three gaskets to reduce heat loss and improve weather-tightness
- **Secure construction**
With 72% better screw retention than through steel, PTRs offer more secure fixing of hardware keeping your frame rigid, stable and secure

Timber clad aluminium outerframe

- **Factory finished paint to match chosen door colour**
We colour your frame as standard to seamlessly mirror your chosen door colour
- **Triple sealed**
Our aluminium/timber system uses three gaskets to reduce heat loss and improve weather-tightness
- **Secure as standard**
The very construction of the timber clad aluminium frame means that the frame itself is incredibly strong and almost impossible to penetrate
- **Security Plus (SP) aluminium frame**
The rigid, high security frame and its engineered construction stops warping and twisting

Threshold options

Aluminium door thresholds to prevent rain and draughts under the door

You have a choice of thresholds from Masterdor, the standard offering is the Stormguard aluminium threshold with a height of 25mm.

The low aluminium threshold, on the other hand, is just 15mm high and creates a low step when your door is open. The low threshold is suitable for disabled and wheelchair access and is Part M compliant.

Sill options

Timber sill

PVC-U sill

Accreditations

Masterdor continually strives for - and achieves - excellence

The Kitemark is a UK product and service quality certification mark which is owned and operated by The British Standards Institution (BSI Group) and is achieved through rigorous testing only at a centre of excellence.

CE Marking is a mandatory conformity marking for products sold within the European Economic Area (EEA) since 1985 and is indicative of Masterdor's complete compliance with EU legislation.

The national body for the accreditation of testing and calibration laboratories, certification and inspection bodies, UKAS is the sole national accreditation body, of which we are a proud member.

CHAS is a health and safety accreditation scheme for the construction industry, as CHAS accredited, we are committed to annual assessments to show we are maintaining the high levels of health and safety management required.

Secured by Design focuses on crime prevention of homes and commercial premises and promotes the use of security standards for a wide range of applications and products.

ISO 14001 is an internationally agreed standard that sets out the requirements for environmental management, to improve through more efficient use of resources and reduction of waste.

PEFC Chain of Custody is the process of handling information on the origin of forest-based products and allows us to make accurate claims on the content of sustainably certified material.

Customer support

At Masterdor, our experienced and skilled customer care team is always on hand to provide technical advice, answer any door style enquiries, provide installation advice and to assist with project enquiries. We ensure that our customers have all the information they require to make the best choice and to provide excellent service.

How to use this brochure

In designing this brochure, we aim to provide you with all the information you need in order to choose the perfect door solution. At your finger tips, you have detailed product information, photographs, hardware choices, quality guarantees and glazing options.

Ordering from us (Available to Trade Customers only)

To place your order with us, you can do it in one of three ways:

Phone : **01773 852311**
Fax : **01773 857080**
Email : **orders@masterdor.co.uk**

Be sure to have your account number handy when making your order, so we can find your business details quickly on our system.

We have the technical know-how

Unsure what door or hardware would be best for a specific job? Our team has specialist working knowledge of our product range, give them a call for helpful technical advice and support.

You can trust us to deliver

We measure our success in accurately providing what you ordered, quickly and on time. Our composite door range is now bigger and better than ever before and we keep our stock holding high so you don't have to. Remember: keep us informed if you are planning a large project and we will make sure we have everything you need in stock.

Dedicated customer services team

The role of the customer care team is to resolve any queries or issues you may have and we aim to respond promptly to your needs. In the event that problems arise, please do get in touch and we will do what we can to help you resolve the issue.

Call our team for support and advice

Masterdor Craftsman doors – maximum choice, style and security

Masterdor Ltd is the largest producer of bespoke doors in the UK and offers design solutions to accommodate all your requirements. The Masterdor Craftsman door range offers a style to suit every home, providing quality backed by service that is second to none.

Masterdor Ltd is part of the Synseal Group of companies. Established over 30 years ago, Synseal now employs over 1200 people and has a turnover in excess of £130 million. Main operations are located at a UK-based 35 acre site with 70,000 square metres of production, warehousing and office facilities.

Thousands of professional installers choose to purchase Synseal products on a regular basis and Synseal recognises and values the loyalty of trade customers, always seeking to find new ways of offering practical support to help Synseal business partners win in the competitive market place.

The Synseal Group product range includes Global or K2 conservatory roof systems incorporating a range of designer orangery solutions, a choice of Legend, SynerJy and Shield 70mm PVC-U window and door systems, Global Glass sealed units which feature the company's exclusive Celsius performance glass for premium applications, in addition to an Evolve range of fully manufactured and CE Marked specialist PVC-U products which includes bi-fold doors, patio doors and vertical sliding sash windows.

Thermally-efficient Celsius Solid Roofs and WarmCore 'warm aluminium' folding sliding doors are the latest product designs to be introduced by Synseal and both these innovations signal new chapters in this award-winning company's history, with a continued pledge of delivering high quality products and service excellence to the fenestration industry.
